slation							
sation							
mentation of Article 19 (8) of the Directive 2018/2001 and	amended with 2023/2413						
Have you fully implemented the requirements of Art.							If GOs are cancelled for disclosure period
19 (8) of Directive 2018/2001(EU) amended with							1.4.Y to 31.3.Y+1, is it required that GOs with a production period within those limits
2023/2413(EU)							are used?
							Yes/No
- If not, please specify which elements you have no	:						
implemented yet.							Please specify
g of disclosure		1	1			r	
Do the production period on the GO and the							
disclosure period coincide?						As far as a GO has not been expired it can be cancelled	
						during discosure period (1.4.Y	
						to 31.3.Y+1) to prove the origin of the electricity	
	No					consumed during year Y.	Yes/No
Are GOs valid for transactions for more than 12							
months after the production of the energy unit?	No						Yes/No
- If yes, please specify Do GOs that have not been cancelled expire at the							Please specify
latest 18 months after the production of the energy							
unit?	No						Yes/No
- If no, please specify	GOs expire 12 months after the end of the						
	production period they have been issued for						Please specify
Are expired GOs collected into the Residual Mix (by							
fulfilling the statistic requirements of AIB)?							
	Yes						Yes/No
- If no, please specify							Please specify
When is the deadline for disclosure?							
	31 March Y+1						please specify; ex. 31 March Year X+1
nition of GOs from other countries							
Do you have criteria in place for accepting foreign GO							
Do you have criteria in place for accepting foreign GO for disclosure?	Yes						Yes/No
Do you have criteria in place for accepting foreign GO							Yes/No Please specify and indicate where those are

suppliers regarding their disclosure of the origin of the gas of their supply?					Gas only, please describe
					Yes/No. Disclosure supervisor for electricity : the
					authority supervising the obligation on supp to inform their clients about their supplier m
Do suppliers submit samples of their invoices to the					and product mix according to Electricity Dire
disclosure supervisor?	Not yet				2019/944, Annex I, Article 5 Disclosure of er sources.
Is there a public report on the result of the disclosure supervision?	Not yet				Yes/No
- If yes, where can it be found?					Please specify
If a supplier is active in multiple Member States: does the supplier mix in your country/region account for this?					N = - (1 =
this? - If yes: how does this influence the supplier mix in your country/region?					Yes/No
omer-specific disclosure					Please specify
Can a consumer cancel their own GOs?				Only for consumption covered by a PD installed behind the	
				meter (net metering). In this	
				case, the GOs issued for electricity produced and not	
				injected to the grid, are cancelled in favor of the	
	Yes			internal consumption.	Yes/No.
Can other parties than licensed suppliers cancel GOs?				Beside autoproducers (i.e. net	
				metering), producers having a direct PPA with an end	
				consumer can cancel GOs for	
				the electricity delivered through this PPA. In order	
				DAPEEP to allow such transaction the producer must	
				submit the PPA to DAPEEP as	V (4)-
	res			evidence.	Yes/No.

When offered energy products include claims on the					
origin of the energy, are they always exclusively based					
on cancelled GOs?	Yes				Yes/No
- If no: please specify					please specify: when are deviations possible,
- ij no. pieuse specijy					what are claims based on otherwise.
Calculations of Residual Mixes					
Gas only: Does your Member State calculate the				8	
residual mix for gases?					Yes/No
- If yes, which method is used to determine this?					Please specify
<ul> <li>If yes, who calculates the Residual Mix in your</li> </ul>					
Member State?					Name of organisation
<ul> <li>Weblink to the results of the national publication</li> </ul>					weblink or explanation from when onwards this
of the residual mix					is expected
Electricity only: Do you use the data of the Residual					
Mix calculated by the AIB?	No				Yes/No
	Residual Mix is calculated by DAPEEP				resyno
<ul> <li>If no, please specify which data you use?</li> </ul>	following a methodology approved by the				
	Regulatory Authority for Energy, Water				
	and Waste.				
	This methodology is compliant with the				
	Issuance Based method followed by AIB.				
	DAPEEP uses the EAM (as long as Greece				
	is a deficit country), compares RM figures				
	calculated with RM figures published by				
	AIB and communicates any discrepancies with view to finetune the procedure.				0
	with view to finetune the procedure.				Please specify
Information on Disclosure communication

When do the suppliers inform their clients about the	disclosure figures of year X in their				by the 1st September of year X+1 for disclosure
disclosure figures?	bills or commercial material.				figures of year X or another deadline?
Union Database (UDB) and disclosure supervision					

Will a link between GO Registry and UDB be provided				
in your domain?				Yes/No
<ul> <li>If yes: which institution/authority will provide</li> </ul>				Please provide name of institution/authority
Will the Disclosure Competent Body have access to the				
UDB?				Yes/No
What mechanism is in place for the interaction				
between the GO registry and the UDB?				Please describe
- If none yet, what ideas or plans are there				
regarding the future for this interaction between				
GOs and UDB?				Please describe
Is data from the Union Database for sustainable				
biofuels checked to confirm the location of renewable				
energy consumption?				Yes/No
- If yes, please describe the principles of this check				Please describe
Is a consistency check done regarding information in				
the UDB and the beneficiary of cancelled GOs for the				
same gas?				Please describe

## Other issues

Have you implemented a full disclosure system in your				
country?	No			Yes/No
- If yes, since when?				Please specify date of entry into for
of the GO				
Do GOs have a function in terms of target compliance				Yes/ No (in case all GOs are linked t
and are used as support instrument?	No			
Is a GO the only "tracking certificate" used?				
	Yes			Yes/No
- If no: Are any other tracking systems of a similar				
purpose and function as GO closely coordinated				
with GO?				
<ul> <li>If no: please name the other organisations active</li> </ul>				
in the market (voluntary schemes/non				
governmental bodies/private initiatives), their role				
and the task they perform.				Please specify
Besides GO, is there only the Residual Mix available for				Yes/No (No meaning there are othe
usage for disclosure?	Yes			mechanisms accepted)
- If no, please specify				Please specify
Are GOs issued for self-consumed energy?	Yes			Yes/No
<ul> <li>If yes: what are the rules on disclosure for such</li> </ul>				
GOs?	They are issued and cancelled			
	immediately. Since self consumed electricity is not represented by a supplier			
	both issued and cancelled GOs are not			
	taken into account in Residual Mix			
	calculations. They are used by the			
	consumer to prove the origin of the electricity consumed through onsite			
	production without absorption from the			
	grid (usually for reporting reasons)			Please specify
s on Power Purchase Agreements (PPAs)		•		
In terms of disclosure, how do you treat energy that is				
bought in a competitive setting or in a long-term				
power purchase agreement?				Please describe
Who is reponsible for disclosing/cancelling the GOs for				
competitive settings or long-term purchase				supplier/plant operator/customer?
agreements?				specify

Informat	ion on Environmental Parameters				
	Does the supplier mix include information on				Yes/No. Note the legal requirement for such
	environmental impacts?				information for electricity : Electricity Directive
		Yes			2019/944, Annex I, Article 5(b)

r					
Please indicate the data source for disclosing					
environmental information with the supplier mix?					
	Data of domestic CO2 emissions are
